

## G. O. P. MEMBERS OF CONGRESS NOW ON ANXIOUS SEAT

Threat of Roosevelt Follow-  
ers Causes Taft Adherents  
Much Worry.

"Uneasy lies the head that wears a crown," and a lot of gentlemen up around the Capitol of the United States who don't wear crowns, but who hold the office of Representative in Congress, are just now getting more than their quota of uneasiness. This refers especially to many of the Republican members of the House who are in a ready restlessness and perturbed state over the factional troubles in the Republican party.

It has got so that when the word "lie" is hurled out of the McKinley-Taft headquarters and the echoes bring back "liar" from the Dixon-Roosevelt headquarters, a Republican member of the House is apt to jump as if hit. These harmless epithets have got on the nerves of many of the members of Congress. But what is giving still more worry to those House Republicans who are for "Taft" is the threat which they are hearing that Taft members of Congress will be pretty apt to find opponents for the nomination brought out against them in their respective districts. The managers are not making such a declaration of war openly, but it has become much more apparent that this will be done in a large number of cases, and that gentlemen who jump into the fight for the President will have to pay the penalty of getting into a strenuous fight to hold their seats.

### Threats Made.

In cases where it is impossible to bring out an effective opponent in this campaign, the word goes that too earnest support of the President against Roosevelt is likely to be remembered by the opposition of progressives for the nomination two years hence.

This is not surprising to the Taft partisans in the House, especially in view of the turn the political situation has taken. Many of the men in the House who are supporting the President are into the thing before they had any notion the Roosevelt movement would become formidable. Moreover, the prospects of Congress ending the session early and getting away from here in June are growing less and less rosy. It looks much as if Congress would be here all summer. This will keep many a man with his nose to the legislative grindstone in Washington. In the evening days of summer, when he would like to be home patching up fences. On the whole, therefore, these are anxious times on the Republican side of the House chamber. It would not be hard to have a fight for the nomination in sight were it not that the general feeling in the House is that this is a year when the Democrats are going to be strong, and that there will be enough hard work to do in the election campaign without wrestling hard for a nomination.

### Taylor In Trouble.

Congressman "Ned" Taylor of Ohio is in more or less hot water. He is staunch for President Taft, while there is much Roosevelt sentiment in the Buckeye State, and it may find a way to block his return. Burke of South Dakota, Martin of South Dakota, Crumacker of Indiana, Campbell of Kansas, Anthony of Kansas, and a number of others may be mentioned who are incurring the displeasure of the Roosevelt men and progressives by supporting the President.

It goes without saying that the effects of the factional fight on the Presidential nomination, many Republican members of Congress fear, will be extended into the election, and will cause knitting of the Republican Congressional ticket in many districts, part of it because members have supported Mr. Taft, and part of it because they have fought him.

### Another Key Thief.

According to Dr. Newton E. Webb, of 1314 East Capitol street northeast, a "duplicate key thief" is again at work. Dr. Webb reported the police last evening that an unknown white man attempted to gain an entrance to his house, but was frightened away by a servant. The would-be thief was seen by Dr. Webb to be about 5 feet 5 inches in height, forty-five years old, and to weigh about 135 pounds.

## GOVERNOR GENERAL OF PHILIPPINES IS HOME ON FURLOUGH

W. Cameron Forbes Says He  
Has No Intention of  
Resigning.

Governor General of the Philippines, W. Cameron Forbes, is in Washington on a furlough, arriving on the day that completed a term of three years as chief executive of the archipelago. He is enthusiastic over the future of the Philippines, and believes that the Panama canal will make a marked improvement in commerce on the island, and this Pacific coast.

While in Washington Governor Forbes will complete the details toward arranging for the exhibit of the Philippines at the Panama exposition in 1915. Six acres will be used by the islands, and the display will be extensive, he says. A board has been created to promote this exhibit, and \$50,000 has been appropriated to defray the expenses.

Manila will become the storehouse of the Philippines, and the shipping facilities are being improved in every way possible. The Philippines free trade clause in the Payne bill, he stated, had made a big difference in the California trade with the Orient, and that the growth will be even more marked within a year. The Philippines are remarkably

## HAIR TONIC MANUFACTURERS ALARMED

Widely Published Prescription of  
Home Made Hair Remedy That  
Stops Falling Hair, and Starts  
New Hair Growth, Has  
Greatly Injured Busi-  
ness. What Drug-  
gists Say.

Well known druggists in a position to know, assert that the manufacturers of various widely advertised Hair Tonics, are greatly alarmed at a new selling problem which confronts them.

It is said that the trouble is due primarily to the appearance, some time ago, in the New York Herald, of a simple prescription or formula for a home-made hair remedy that was recommended for removing dandruff to stop the hair from falling and to grow new hair on any bald where hair roots were not dead.

As an item of news interest to millions of readers this prescription was reprinted in nearly every newspaper in the United States and Canada. Thousands of people took the hint, stopped the use of ready-made Hair Tonics, and mixed instead this simple, inexpensive remedy for themselves and quickly obtained most wonderful results.

One druggist in speaking of this matter stated: "Yes, it loses me many sales of the patented Hair Tonics, but still I gladly recommend the prescription as it is absolutely harmless and the results it gives are truly wonderful. I doubt if any advertised ready-made hair tonics can approach them. Only the other day a lady told of her husband's experience. He is a man fifty years old, she said, 'has been bald for twenty-five years and has used everything. He had this prescription filled and in one week the hair started to come in. I know, too, of many other cases where it has stopped falling hair, cured dandruff, and started new hair growth in from ten to thirty days on the baldest heads.'"

To make this preparation, the user should procure 5 oz. Bay Rum, 1/2 drachm Menthol Crystals and 2 oz. Lavender Compound. The Bay Rum and Menthol Crystals should be mixed in an 8 oz. bottle and then one-half of the Lavender Compound should be added and shaken thoroughly. This mixture should be allowed to stand over night when the remainder of the Lavender Compound should be added. After standing an hour it is ready for use. This mixture should be applied night and morning and rubbed briskly into the scalp with the finger tips. Users should be careful not to apply where hair is not desired.

peaceful in every particular," said Governor Forbes. "Seldom is there any warfare to agriculture, and are making great strides toward civilization."

Several months ago there were rumors that Governor Forbes would retire because of ill health, and that his trip to the United States was the first step in that direction. However, the governor is now in the best of health, and has not the slightest intention of giving up his post, he says. His furlough will expire September 15, and he will then return to the Philippines, the meantime spending his vacation at his home on the lower end of Cape Cod, where he owns the island of Nantuxet. He expects to be in Washington several days.

## Waifs From Titanic Are With Relatives

NEW YORK, May 10.—The two little boy waifs from the Titanic, after having been in the care of kindly strangers here since they arrived on the rescue ship Carpathia, are at last under the roof of a relative, who will keep them until the arrival of their mother, Mme. Navratil, from France. She is due here on the steamer Oceanic about May 15. The name of the relative who took charge of the two boys, Michael and Edmund, aged four and two years, respectively, was withheld by the children's society.

## Cultom Plants Tree.

Senator Cultom of Illinois, who is eighty-three years old, planted a tree in the northeast section of the Capitol grounds yesterday. He was accompanied by Miss Eleanor Ridgely, his granddaughter. The tree, an American elm, is one of a number recently planted about the grounds by members of the Senate and other prominent men.

## Club to Meet.

The Washington Classical Club will hold its eighteenth regular meeting tomorrow afternoon in the chapel of National Park Seminary, at Forest Glen, at 4 o'clock. Prof. Mitchell Carroll, of the George Washington University will give a lecture on "The Homeric Story and Archeological Studies."

## McKelway Named.
